

## INSPECTOR PRAISED LOCAL CADET CORPS

Said Cadet Band was Best He  
Had Seen Since Coming  
to this Province.

INSTRUCTORS FEEL GRATIFIED.

Cadets Planning to Go into Camp  
at Edmonton for One  
Week's Drill.

Major Outhit, inspector of  
Alberta Cadets for Military  
District No. 13, was in town  
on Friday last inspecting the  
Wainwright Cadet Corps, No.  
228. Twenty-nine members  
were on parade. The inspector  
was well pleased with the corps  
and especially the band, which,  
he stated, was the best he had  
seen in Alberta. Only a few  
of the larger cities and towns  
have a larger cadet corps than  
Wainwright, and according to  
Major Outhit the organization  
work has been exceptionally  
well done.

The members of the corps  
will go into camp at Edmonton  
on July 1st. Principal  
McLean, Cadet Instructor Ar-  
thur King and R. B. Bryden  
will have charge of the corps  
while in camp. The camp will  
last one week and upwards of  
five hundred cadets from points  
in northern Alberta will attend.  
Another camp will be held in  
Calgary the same week.

Major Outhit is a Halifax  
man and has only been in the  
country one month and is much  
impressed with Northern Al-  
berta. While here, and at the  
close of the inspection, he ad-  
dressed the boys and complimented  
them on their smart ap-  
pearance, their promptness and  
alacrity. The Major also spoke  
on the benefit of the cadet  
corps for boys and instanced  
Sweden and Switzerland as ex-  
amples of two nations, where  
the training of boys in military  
drill and calisthenics was an  
important part of their educa-  
tion as being two of the most  
powerful and law abiding na-  
tions in Europe.

Principal McLean and others  
who have been in charge of  
instructing and drilling the lo-  
cal cadets were much gratified  
with Major Outhit's report. Es-  
pecially was this true of Mr.  
King, under whose charge the  
cadet band was organized and  
directed.

## NEW CANADIAN LOAN

A new Canadian government  
loan is being underwritten com-  
prising 5,000,000 pounds, four  
percent, at 98. The previous  
Dominion of Canada loan floated  
was 4,000,000 pounds in  
December last when seventeen  
percent was taken up by the  
public, and 83 percent left with  
the underwriters.

## 2 FATALITIES AT FIRE

Two human lives and \$20,000  
destruction was the loss in a  
recent fire in Fort George,  
when a dozen buildings, includ-  
ing the Palace Hotel, were  
destroyed. Narrow escapes  
were recorded and for a time it  
was thought that the loss of  
life was greater. The killed  
were Bert Moody, G.T.P. time-  
keeper, and N. Sokolowski, a  
bridge worker.

## MANITOBA ELECTIONS

There is a merry time in  
Manitoba at present, as a result  
of announcements from govern-  
ment headquarters that the  
general elections will be held  
earlier than announced. The  
liberal party of Manitoba an-  
ticipate that the elections will  
be held on either July 3 or 6.  
Both parties are busy.

A number of town wells are  
said to be going dry. Fears  
are also entertained for the big  
well on the corner of Main and  
4th Ave. Evidently the water-  
works system cannot be com-  
pleted any too soon.—Watrous  
Signal.

# The Wainwright Star

VOLUME VI

WAINWRIGHT, ALBERTA, WEDNESDAY, JUNE 10, 1914

NUMBER 36

## DO BACHELORS ACT AS DRAWBACK TO COUNTRY?

This is Proving Subject of Ser-  
ious Consideration by Rural  
Municipalities.

Whether bachelor home-  
steaders constitute a drawback  
to a mixed farming community  
is a matter of lively discussion  
and serious consideration in the  
rural municipalities through-  
out the province of Alberta,  
where, it is declared, the inter-  
ests of married men and bachel-  
ors conflict in regard to a  
by-law which restricts the run-  
ning at large of cattle and other  
livestock.

Growers say that there are  
large tracts of idle lands in the  
new rural districts which could  
be used by farmers for stock  
grazing purposes, but they are  
prevented from doing so  
through by-laws passed by the  
municipalities. This, it is  
asserted, is largely the work of  
bachelor homesteaders who  
turn out to a man to vote for  
restrictions on stock running  
at large, to save the cost of  
fencing 20 to 30 acres of land,  
which they put under crop,  
working elsewhere in the sum-  
mer.

"These by-laws, which the  
bachelors have been instrumen-  
tal in passing," said an interest-  
ed farmer, "mitigate against  
the interests of men who live  
on the land with their families  
throughout the year. We  
could keep large herds of dairy  
cows and cattle and other live-  
stock were it not for these re-  
strictions. These industries  
would not only make more  
money for the resident farmers,  
but it would also assist in an  
effort to reduce the cost of liv-  
ing in the cities."

Hon. Wilfred Gariepy, min-  
ister of municipal affairs, who  
has just prepared a bulletin,  
which deals fully with the law,  
will be requested to draft a  
connecting amendment, to be  
introduced at the session of the  
provincial legislature next fall.

## TO RECOVER BODIES

Divers will go down after the  
800 bodies that are believed to  
be in the Empress of Ireland at  
the bottom of the St. Lawrence.  
Work will be done by the Essex,  
a Quebec cruiser that  
has a modern outfit for sub-  
marine work and her divers  
will be able to penetrate the  
corridors of the sunken vessel.

## SUB-AGENT BUSY MAN

Sub-Agent of Dominion Lands  
H. W. McLeod, states that a  
large number of homesteaders  
are proving up and that Satur-  
day last was one of the busiest  
days he ever had in the local  
land office. No less than nine  
homesteaders applied for pat-  
ents that day.

Mrs. R. T. Williamson, and  
children of Edmonton, are the  
guests of Dr. and Mrs. Little  
this week.

W. J. McLean was elected  
Noble Grand of the I. O. O. F.  
lodge on Monday night and A.  
D. Ferguson chosen as Vice  
Grand. H. W. McLeod was re-  
elected to fill the office of sec-  
retary for the term ending  
December 31st.

George B. Campbell, of Wet-  
askiwin, who is well known  
here in political circles, was a  
visitor here yesterday between  
trains. Mr. Campbell is inter-  
ested in the Wetsaskiwin Al-  
berta Oil, Ltd., a new company  
recently formed at Wetsaskiwin.

## NO MORE DRINKING CUPS ON G.T.P. LINE

Common Drinking Cups No Long-  
er on Railways Operating  
in Alberta and Sask.

No longer will common  
drinking cups be allowed on  
railways operating in Saskat-  
chewan and Alberta, this com-  
ing into effect on June 1st.  
News agents will carry a supply  
of waxed-paper cups which will  
be handed out on request. All  
hotels in Saskatchewan are now  
required to dispense with the  
time-honored roller towel.

## STRENUOUS EFFORTS BY FIRE BRIGADE AT SUNDAY NIGHT FIRE

Fire at E.F. Mott's Residence Had  
Gained Big Start when  
Chemicals Arrived

Strenuous efforts on the part  
of the firemen and will citizens  
who assisted, saved the Myer  
house on 7th Ave. from com-  
plete destruction by fire on  
Sunday night. An alarm was  
rung in at about 11 o'clock, an  
immediate response being made  
by a large number who hauled  
both chemicals to the scene. It  
was found that the oil of the  
building was in flames, and  
those in charge of the chemicals  
set to work to extinguish the  
blaze. Water was conserved  
and the proper methods taken  
to put out the fire without the  
service of the large gasoline  
engine.

It is not known how the fire  
started, Frank Mott, who occu-  
pies the dwelling stating that  
when he left the house at  
about 8 o'clock there was no  
sign of fire. The damage to  
the building will be slight. A  
considerable amount of furni-  
ture was either burned or de-  
stroyed. The house is owned by  
Colin Cattle, and it is under-  
stood that it was insured, as  
well as the furniture in it.

## TERMINAL EXAMS SOON

Wainwright has been chosen  
as the centre, at which Grades  
11 and 12 may write. The ex-  
aminations will begin for these  
grades on June 24. Those not  
taking languages will, however,  
begin to write on Monday,  
June 20th, and finish on July  
3rd. Candidates will not write  
on July 1st.

One feature of the events for  
July 1st, will be a horse reel  
competition between different  
teams, composed of members  
of the local fire brigade. It is  
also expected that Chauvin will  
compete for the prizes that will  
be offered by the town council.

W. E. Mills is in Edmonton  
on business in connection with  
the Wainwright Oil & Gas Co.  
of which company he is a direc-  
tor. He has been in that city  
for the past ten days and it is  
understood that he is endeavor-  
ing to secure a drilling out-  
fit.

R. E. R. Webster, formerly  
R.N.W.M.P. here, but now on  
the detective force with head-  
quarters at Edmonton, has been  
a visitor here for a few days.  
Rumour connects him with  
the name of that of a local young  
lady and a forthcoming happy  
event.

C. C. Walrath, representative  
for the L.H.C. at Edgerton, has  
opened a new hotel at that  
place. The house will be known  
as the "Commercial Hotel." Those  
who have been accustomed to  
stopping at the Commercial are  
loud in their praise of the treatment  
and service they get.

## CONSTRUCTION OF BRANCH IS BEING HELD UP

Crew and Grading Outfit  
Are Now Waiting at  
Bruderheim.

News reports from Vermillion  
state that over 100 teams of  
mules, a large gang of men and  
a full complement of grading  
machinery, all belonging to the  
Northern Construction Co., have  
been waiting at Bruderheim for  
the past two months awaiting  
instruction to proceed with  
work on the branch line to  
Vermillion. The company, it is under-  
stood, is held up for lack of funds  
and as soon as the guarantee of the  
Dominion government is se-  
cured to the proposed bond  
issue, construction work will  
be started on this branch with-  
out further delay. The Bruderheim line has been  
surveyed, the final location  
skirting the main line of the  
C.N.R. to Vermillion, from  
whence it will run into Wain-  
wright and Medicine Hat.

## Committees for Dominion Day Working Hard

Sports Day will be Conduct-  
ed Along Same Lines  
as Last Year.

Committees in charge of the  
July 1st celebration are down  
to work and have had several  
meetings during the past week  
in preparation for Dominion  
Day. The Sports day this year  
will be along the same line as  
in former years, and will in-  
clude baseball, athletic events,  
horse racing and special features  
now being decided by the dif-  
ferent committees. One feature  
of the day this year will be an  
elaborate display of fire works  
at the close of the day's per-  
formance.

## RATEPAYERS AND ASSESSMENT ROLL

Ratepayers of the town are  
reminded that the assessment  
roll has been prepared and  
notices mailed. Anyone desir-  
ing to object to the assessment  
of himself or any other person  
must before June 20th lodge his  
complaint in writing at the  
office of Secretary Kenny. A  
notice to this effect appears  
with this issue and taxpayers  
should govern themselves ac-  
cordingly.

"Our next issue," wrote the  
editor of an exchange, "will be  
exceedingly interesting, as it  
will contain names of all our  
delinquent subscribers." But  
when the week had passed it  
was unnecessary as all delin-  
quents had paid up.

Members of the newly organ-  
ized band are diligently blow-  
ing away their wind on the  
different instruments, and in  
the majority of cases, more or  
less progress is being made.  
Bandmaster King believes he  
will yet have a band for July  
1st.

The bazaar held by the ladies  
Aid of Grace Methodist Church  
on Saturday last proved highly  
successful and a sum in excess  
of \$50 was received from sales  
made during the afternoon. The  
number of fancy articles re-  
flected great credit on the  
members of the Aid.

## NEW SCHEDULE IS PROVING POPULAR

Schedule on G.T.P. is Termed  
Superior to Any in the  
Entire West.

The new schedule which  
went into effect on the G.T.P.  
Sunday has already resulted in  
general satisfaction. The travel-  
ing public emphatically de-  
clares that the service now af-  
forded by the G.T.P. is far su-  
perior to any line of railway in  
the west. The change in the  
time table is also proving  
popular.

## WALTER KING WINS "MUSSON SWORD" FOR BEST OFFICER

Empire Concert Proved Highly  
Interesting to Large  
Audience.

The Empire concert given  
under the auspices of the  
Daughters of the Empire and  
the direction of Mr. H. C. King,  
on Friday evening last proved  
highly interesting and succeed-  
ed in pleasing one of the largest  
audiences ever assembled in the  
local theatre. The cadets were  
in their glory and afforded an  
evening's entertainment that  
would be hard to beat.

The Musson Sword, donated  
by Mrs. A. E. Mills to the  
officer who conducted his  
company in the best military  
style, was won by Walter King.  
Rev. S. A. Wallace, G.L. Hudson  
and Mayor Lally acted as  
judges, and they found difficulty  
in selecting a winner from  
those who competed. Cecil  
Ward, R. Simmerman and  
Walter King were three from  
whom the choice was finally  
made, and the audience was  
divided on the opinion as to  
which was entitled to the prize.

Mrs. H. Y. Pawling, Regent  
of the Daughters of the Empire  
here, made the presentation of  
the flag, which was donated by  
"Walter Musson" Chapter.  
This proved an interesting part  
of the concert. Patriotic,  
humorous and character songs  
were rendered by Cadet Harry  
King, R. B. Bryden, Mrs. C.  
Potter and Arthur King, all of  
which were received by the  
audience with deafening ap-  
plause.

An illustrated song, entitled  
"The Stowaway," in which Mr.  
King figured as the captain and  
Helen Shirley as the stowaway,  
was a unique part of the  
program. A musical sketch,  
"The Dime Picture Show," was  
rendered by Mr. King and Miss  
Parsons and proved of high  
order, both being seen to  
advantage in grand opera parts.  
A dance was held after the  
concert by the Daughters of  
the Empire. This was termed  
a "Union Jack Dance," admis-  
sion to it being by a small Union  
Jack. The affair proved  
enjoyable and was well attend-  
ed.

More than usual credit is due  
Mr. King for the manner in  
which he trained the scouts for  
this concert, and many words of  
praise were heard from every  
quarter. The concert was a  
patriotic from start to finish  
and evidence of the fact that  
Wainwright people are loyal  
subjects was given on every  
hand.

The Ladies Aid of Grace  
Methodist church request that  
anyone having plates and dis-  
hes belonging to the aid, return  
them to the Parsonage some-  
time before Saturday.

A meeting of the Hospital  
Union will be held in the coun-  
cil chamber, on Friday after-  
noon of this week and mem-  
bers are requested to attend as  
urgent matters are to be dealt  
with.

## CONTRACT FOR NEW POST OFFICE HAS NOT BEEN LET

People Anxious to Know Whether  
or Not Building will be Erac-  
ted This Year.

Whether or not the new post  
office will be erected this year  
is a matter on which the major-  
ity of people are not quite clear,  
and frequent enquiries by word  
of mouth and through private  
letters have been made asking  
the STAR for some information.  
For the benefit of out-of-town  
people who are interested in  
Wainwright it might be said  
that very little is known at  
present, and anything the STAR  
might say would only be an  
expression of opinion.

Hon. Frank Oliver recently  
asked a question in the House  
of Commons as to the govern-  
ment's position in regard to the  
proposed public building at  
Vermillion and the Hon. Robert  
Rogers replied as follows:—"We  
have got the site, but no  
contract has yet been let. Both  
the Vegreville and Vermillion  
public buildings will be gone on  
with this summer."

The government's position in  
regard to Wainwright's public  
building was not questioned at  
the time. It is understood,  
however, that no contract has  
been let. The above quotation  
of the question asked by Mr.  
Oliver is from "Hansard."

## AT THE ELITE

"JUDITH OF BETHULIA,"  
a four-reel Biograph feature  
photoplay masterpiece, will be  
shown on Wednesday, June  
24th.

Bethulia is a fortified town  
of Judea, guarding a hill pass  
through which an invading  
Assyrian army must march in  
order to enter Judea. In the  
town lives Judith, a devout  
young lady of lofty character  
and remarkable beauty, when  
the place is stormed by Holo-  
fernes at the head of a large  
army. The fighting before the  
gate brings into action an  
enormous number of soldiers  
on both sides, and those engines  
of war, such as the battering  
ram and catapult, which were  
used by the fighting male of  
other days under close condi-  
tions of furious combat. One  
desperate assault after another  
is repelled, scaling ladders are  
thrown down, great rocks are  
showered upon the invaders,  
and the wonder is that they  
keep at it. The reason is that  
Holofernes has a way of tortur-  
ing and killing unsuccessful  
captains. An officer had better  
die in the thick of battle than  
return with a confession of de-  
feat.

The great leader's brutality  
to his captains when they do  
not succeed in carrying the  
fortress by storm indicates  
what the inhabitants of Bethu-  
lia may expect in the event of  
capture and serves to intensify  
the clash of character later on,  
it adds peril to the undertaking  
of Judith when she resolves to  
sacrifice herself for her people.  
Holofernes, after making an  
horrible example of defeated  
captains by frightful torture,  
resorts to strategy. His sol-  
diers have seized the wells from  
which the inhabitants of Bethu-  
lia obtain their water supply,  
and their leader adopts wait-  
ing tactics, diverting himself with  
dancing girls to break the tedi-  
um. Bethulia is on the verge  
of famine and the besieged  
are almost ready to surrender  
the fortress and all Judea to  
the spoilers, when Judith goes  
forth in her finest raiment, ac-

## DETERMINED TO RID TOWN OF BOLD INTRUDERS

Women of Town Terrorized by  
Tramps Who Have been  
in Evidence.

ONE SENTENCED TO 30 DAYS.

Justice of Peace Does not Intend  
Emulating Example of  
Others.

For the past week or ten  
days, residents of the town have  
been annoyed and in some cases  
women terrorized by tramps  
and vagabonds, who, having  
beat their way into town on an  
incoming freight or walked the  
track from Edmonton, are  
seemingly making Wainwright  
their camping ground. At  
least fifteen of this class of  
hoboes have been seen of late,  
and wives of railway men have  
complained of tramps entering  
houses at all hours of the day  
and night and demanding food.  
On Friday evening last, about  
11 o'clock one of these men  
rapped at the door at P. E.  
Ross' home and wanted some-  
thing to eat. Mr. Ross, fortu-  
nately happened to be at  
home and putting on his hat  
stated that he would find him  
something to eat. He took the  
intruder by the arm and march-  
ed him to the police barracks,  
where a charge of vagrancy  
was laid against him. Mr. Ross,  
who is Justice of the Peace  
here, tried him on Monday  
morning and sentenced him to  
30 days in jail.

This is but one of the many  
instances where men of this  
stamp have annoyed house-  
holders, and especially women  
who are alone at certain times.  
It is gratifying to know that  
Mr. Ross has made an example  
of one vagabond, who will not  
be heard of again for some-  
time. Justice of the Peace Ross  
is determined to keep these men  
as far away from Wainwright  
as possible, and does not intend  
following the same course as  
magistrates in other towns and  
cities where unemployed men  
with no visible means of sup-  
port are ordered to leave.

Tramplers have complained  
of late of trouble they have had  
with tramps who have even  
offered resistance when ordered  
off their trains. Conductors do  
not feel disposed to take their  
lives in their own hands  
when they after the experience  
of the justice of the peace at  
Amisk, who was shot dead a  
short time ago when he attempt-  
ed to arrest one of these men.

At the last meeting of the  
town council George A. Smith  
was appointed to succeed H. C.  
King, resigned, as a member  
of the Board of Health. Arthur  
Soffield was at first appointed  
but stated his unwillingness to  
act.

E. T. McDowell, representing  
the Grattan Oil Co., was in  
town yesterday and while here  
stated that the people around  
Irma are buying shares gener-  
ously and have faith in oil pros-  
pects in that vicinity, 25,000  
shares having been sold in Irma  
alone.

The first Thursday half holi-  
day last week was observed by  
the majority of local business  
houses, but the inclemency of  
the weather prevented anyone  
from enjoying the afternoon as  
they had intended.

W. B. Ferrel, a brother of  
A. G. Ferrel, who left here  
some time ago to reside in  
Roundup, Mont., died at Ver-  
million a short time ago. The  
late Mr. Ferrel made several  
visits here and was known to  
many citizens.

Continued rains during the  
past week have drenched the  
ground and supplied enough  
moisture to the soil to last for  
months, even in the event of no  
further rains. Enough rain has  
fallen for the present and farm-  
ers are now hoping for  
brighter weather.

# LEGACY

When traveling your watch is a most important item. It is a legacy to you. It is a legacy to your family. It is a legacy to your friends. It is a legacy to your country. It is a legacy to the world.

For Sale by all Jewelers.

# EDUCATION GROSSLY STUPID

English Educational System Strongly  
Criticism by Criminologist

Dr. Albert Wilson, the eminent  
criminologist, lectured at the  
International Club for Physical Research.

He referred to the "stupidity" of  
the English educational system.

Dr. Wilson's subject was "The  
Physical Basis of Mental Manifestations."

He pointed out the length of  
the lecture.

He introduced a series of micro-  
photographs of brain sections.

Dr. Wilson remarked that unfortun-  
ately he had in this country been in

such a state of barbarism for the last  
forty years that instead of turning

into a state of civilization, he had  
produced people with stunted  
brains.

He said that the English educa-  
tional system was "stupid."

He said that the English educa-  
tional system was "stupid."

He said that the English educa-  
tional system was "stupid."

He said that the English educa-

# POSTMISTRESS IS QUITE WELL AGAIN

FOUND COMPLETE CURE IN DODD'S KIDNEY PILLS

Mrs. Gray, who has Nervous  
Run Down for Two Years, Tells  
How she Found New Health.

Titchborne, Frontenac Co., Ont.  
(Specialist) Dr. J. Gray, who has  
been a postmistress here, is telling her  
friends of the great benefit she has  
derived from Dodd's Kidney Pills.

"For about two years," Mrs. Gray  
says, "I was all run down. My sleep  
was broken and unrefreshing, and I  
suffered from shortness of breath and  
heart fluttering. I finally decided that  
the kidneys were the cause of my  
trouble and decided to try Dodd's Kid-  
ney Pills. I took four boxes in all  
and I feel quite strong and like my  
self again. I certainly think Dodd's  
Kidney Pills are a good medicine."

The experience of the postmistress  
is similar to that of thousands of  
other women who have suffered from  
weak, run down, nervous and in bad  
health generally. They took Dodd's  
Kidney Pills and are strong and well  
again.

The reason is that when the kid-  
neys get out of order they fail to  
strain the impurities out of the blood  
and general lassitude and weakness  
ensues. The natural cure is to treat  
the kidneys. The experience of thou-  
sands of others tell you that Dodd's  
Kidney Pills cure the kidneys.

What Makes the Corn Pop?  
Everyone knows and likes that  
mellow, but somewhat sticky, popcorn.  
But how many can tell what makes  
the corn pop? A writer in Harper's

A kernel of popcorn is filled with  
tightly packed starch grains. The in-  
terior of the kernel is divided into  
large-number of cells, each of which  
may be likened to a tiny box, the  
walls of which are made of cellulose  
withstand considerable pressure from  
within. Upon the application of heat  
the moisture in the cells is driven out  
and the cells are converted into steam,  
which escapes by explosion. The grain  
of corn then bursts and is transformed  
into a relatively large mass of snow-white  
starch.

The Outlook  
Augustus and Angelina were climbing  
the highest peak in the Alps and she  
stood above him some twenty feet.

"What," he gasped—"what do you  
see?"

"Far, far below," she cried, "I see  
a long, straight, stretching line of  
paper ribbon back almost to our hotel."

"It is," he ejaculated, "It is that  
hotel bill overhanging us."—Tit-Bits.

A Standard Medicine—Parmeo's  
Vegetable Pills, compounded of en-  
tirely vegetable substances known to  
have a revivifying and tonic effect  
upon the digestive organs, have  
through years of use attained so em-  
inent a position that they need no  
recommendation. The pills should be  
remembered. This, simple in their com-  
position, they are gentle and are cer-  
tain to have a healthful and agreeable  
effect on the sluggish digestive organs.

A man went to a judge and asked  
whether he could bring suit for a  
rhinoceros. The judge asked him  
what he had called him.

"Why, certainly," said the judge.  
"What did you call him?"

"About three years ago," said the  
man. "Three years ago? And you only  
start suit today?"

"But, your honor, yesterday I saw  
a rhinoceros for the first time."—Ber-  
liner Illustrate Zeitung.

To get the full name, LAXATIVE BROMO QUININE.  
Look for signature of E. W. GHOYE, Cures a Cold in One Day.

Made the Hot Air Work  
Until the hot air was in-  
voked the work of unloading cars  
loaded with coal in winter in Phila-  
delphia used to be a very hard  
task. For it often happened that heavy  
trains arrived with the coal  
frozen into a solid mass. The  
men had to use dynamite to break  
up the coal. It was a very hard  
task. It was a very hard task.

At one time, like as many places  
in an oven. Here in a temperature  
of 100 degrees Fahrenheit the  
contents of a car are thawed from  
the sides. In forty minutes or so  
the unloading process is completed,  
and the cars are taken from the oven  
and hoisted over the slip, when the coal  
runs out easily.

It took twenty cars in forty min-  
utes what it took 100 men a day to  
accomplish.

Ask for Minard's and take no  
other.

"She—think how it disgraces me  
before the neighbors to have you  
come home as you did last night."  
He—But, my dear, no one saw me.  
She—Suppose they did. I must have  
heard him scolding you.—Boston Transcript.

She turned on him with withering  
corn.

"I shudder to think," said he, "what  
she would have said to me if her  
sister had been strong and free."—  
Detroit Free Press.

"Did they cut out anything when  
you were in the hospital?"

"Yes, I think they cut out about  
everything they could get hold of ex-  
cept the bill."—Baltimore American.

Clerk—Mr. Brown, I should like to  
ask you a question. I have just been  
married.

Employer—Very sorry, my dear  
man, but I can't help you. For  
decade which happen to our employees  
outside the factory we are not re-  
sponsible.—National Magazine.

"Is that right, Charlie, as your  
mother-in-law says, a fat lot of  
good it does you."—Punch.

# Porcelain Houses

Until comparatively recent times  
houses were built either of wood or  
brick. Buildings in the suburbs and  
rural districts were of frame and  
those in the city brick. Stucco was  
introduced a few years ago and the  
heats of that came concrete, re-  
inforced concrete, hollow tile and  
concrete blocks. If a scheme had  
the attention of a man for many  
years materialized, and he says it  
was the house built of porcelain will  
be the next seen in the suburbs of New  
York. This man is in the porcelain  
business and is of a family of porce-  
lain makers and has had such a build-  
ing in mind for forty years.

The first years of experimenting he  
succeeded in making a porcelain tile,  
strong enough for building purposes  
and soon will erect a house of porce-  
lain.

The tile will be built around the  
skeleton frame of a skyscraper.  
In other words, the house will have a  
skeleton frame of steel and the tile  
will be nothing more than a finish.

The tile will be as tough and of  
strength not expected of such brittle  
material as porcelain. It is of com-  
posite, heat-taken, and is very  
strong and makes a perfect house.

Besides strength and remark-  
able beauty, the tile will be a perfect  
house will be waterproof and steam-  
proof. Except for the steel frame  
the house will be a perfect house.

There will be no corners nor angles  
for them to get out of order. The  
house will be a perfect house.

Length of the Work Day  
There is no reason why the farm-  
er cannot work in accordance with  
a certain definite plan, keeping in  
mind the right amount of work to  
do each day, as much as can be ac-  
complished in a nine or ten-hour day  
in the field.

It is difficult to feel that one is  
so near home. We ought to sigh  
Sandy Hook this afternoon.

"It is difficult to feel that one is  
so near home. We ought to sigh  
Sandy Hook this afternoon."

Sandy Hook this afternoon."

# Terrible Scalding Accident

ZAMBUK GAVE QUICK RELIEF

For taking the pain out of a burn  
or scald there is nothing equal to  
Zam-Buk. Mrs. Eugene Demore, of  
Pembroke, Ont., who was the victim  
of a painful scalding accident, proved  
this. She says: "I was carrying a  
boiler of steaming water from the  
store to the wash-bow, when suddenly  
my strength failed. As the boiler  
was falling in spite of my efforts, I  
heard my babies cry, and to avoid  
scalding them I gave the vessel a  
quick turn. The effect of this was  
that every drop of the boiling water  
poured over my feet and limbs,  
scalding me from my waist down.

"As soon as I saw the children  
had escaped, I took my oldest boy to  
bring the Zam-Buk, which I always  
keep in the house. I applied Zam-  
Buk freely, and the pain was soon  
eased. I continued using Zam-Buk  
until the burn was healed. The  
sores were completely healed."

Zam-Buk is equally good for cuts,  
bruises, eczema, ulcers, hemorrhoids,  
etc. Price 60c per box, at all drug-  
stores and stores, or post free from  
Zam-Buk Co., Toronto, Ont. Refuse  
substitutes and imitations. There is  
nothing "just as good."

An American girl was bringing a  
Liverpool girl home with her, and  
ward the end of the voyage re-  
turned. She said: "I was so tired  
that I fell asleep during the night."

"It is difficult to feel that one is  
so near home. We ought to sigh  
Sandy Hook this afternoon."

"It is difficult to feel that one is  
so near home. We ought to sigh  
Sandy Hook this afternoon."

"It is difficult to feel that one is  
so near home. We ought to sigh  
Sandy Hook this afternoon."

"It is difficult to feel that one is  
so near home. We ought to sigh  
Sandy Hook this afternoon."

Sandy Hook this afternoon."

# Every Still Joint Limbered, Rheumatism Cured!

That Old Family Remedy "Nervine"  
Is Guaranteed for the Worst Cases

CURES NEURALGIA, BACKACHE,  
LUMBAGO

Rheumatism today is unnecessary.  
It is so well understood and so read-  
ily curable that every day we have re-  
ports of old chronic being freed of  
their tormentor.

"I can speak confidently of the Ner-  
vine treatment, for the simple rea-  
son that it cures me," writes Albert  
B. Corning, from Kingston, Ont. "You  
can't imagine how stiff and lame and  
sore I was. Nights at a time I  
couldn't sleep well. I followed the  
Nervine directions carefully—had it  
used into the sore regions four or  
five times every day. Every rubbing  
helped to reduce the pain. The swell-  
ing went down. I got a fair measure  
of relief in a week. I also took two  
Perrone's Tablets with my meals.  
They increased my appetite and spir-  
its, purified my blood and toned up  
my system generally.

"I am as well today as I can be—  
I give Nervine all the credit."  
A large family size bottle of Ner-  
vine is sent on trial for the trial size  
25c, and is useful in a hundred ills to  
the family. Whether it's toothache,  
sore throat, headache, neuralgia, lam-  
back or a cold, Nervine will cure  
just as readily as it will cure rheu-  
matism. For family use nothing equals  
Nervine.

Small Tacks  
How is this for a stunt? The  
centre of the tack industry used to be  
Bromsgrove, town in Worcester-  
shire, Eng., where all the tacks were  
made. It was a common feat for  
some of the boys to throw a tack as  
small as a pin, the barrel of which  
ordinary goose will, their weight be-  
ing only about twenty grains.

"No, Gladys," said Mr. Cunnort.  
"You cannot go to L. party tonight."  
"Why not?"

"Because we cannot be out of fash-  
ion. There is only one set of rain-  
bow hair in the house, and I am going  
to wear that myself."—Washington  
Star.

How Long Learned to Read  
Andrew Lang—the best prose writ-  
er of the age, according to many crit-  
ics—took to the printed page almost  
as instinctively as a duck takes to  
water. "About the age of four," he  
relates, "I learned to read. I had a  
simple program. I had heard the story  
of Cock Robin and I knew it by rote.  
I took a letter and I picked out the  
words which composed that classic  
tale. I could read it for myself. A  
nursery legend tells that my mother  
used to arrange six open books on the  
chair and to read one to the other  
this was what people call 'deciphering'  
reading, but I did not bear the criti-  
cism until later, and then too often  
for my comfort."

Much Easier  
Candidate of Ideals (Wouldn't you  
rather be right than president?)  
Practical Friend—Certainly! It is so  
much easier to be right—Halt-  
Record-Right.

Motorist (On country road)—I'll  
give you \$5 for that road—if you  
don't put another stroke to it.  
Artist—I am really very flattered  
by your offer, but it is not quite  
finished.  
Motorist—Oh! that doesn't matter;  
I make the canvas to mind and  
busted tire with.

The marquis is very thin, isn't  
she? What would you think our ages  
were?  
Well, she seems ten years older  
than she is, and she's ten years older  
than you are. Then you seem years  
younger than you are, that makes  
thirty years difference between you.  
—Pete Metc.

"The marquis is very thin, isn't  
she? What would you think our ages  
were?"

"The marquis is very thin, isn't

WAINWRIGHT ALTA., WEDNESDAY, JUNE 10th. 1914

## CROP RESULTS SERVE AS BUSINESS BAROMETER.

INDICATIONS ARE FAST MULTIPLYING to show that the business situation throughout western Canada will be much better before 1914 closes. At present trade is rather spasmodic, advancing and receding day by day, according to the consumptive demand. When the tide does turn and the time arrives when important crops are either assured or harvested, and the conservative business men are in possession of facts, instead of predictions, there may be a repetition of the experiences of two years ago. Such is an outline of the business situation throughout western Canada, appearing in the latest issue of the "Commercial". According to this publication, which keeps closely in touch with western trade conditions, business in every line is beginning to pick up, very few lines showing worse than exceptional activity.

The western press invariably bases trade comment on the indications of a good or fair crop, and it is right that this should be the foundation on which the country's prosperity should rest. The prairie provinces have very little, apart from grain, on which they can rely. Poor crop conditions result in stagnation in the country's business, and good harvests mean that an increase will be shown. The good crop of last year has not brought about very many noticeable changes in the business situation as yet; the changes must come gradually. It is for this reason that many claim that the conditions of two years ago, when the country was in a most flourishing condition, will only be repeated after another good crop. It is therefore encouraging to note that spring conditions have proved favourable and that general crop conditions at this time of the year were never better in the country's history.

THE EFFICIENCY OF THE LOCAL FIRE BRIGADE and the chemical extinguishers was proved on Sunday night. Wainwright has a brigade of which it has reason to feel proud. It was nothing short of wonderful that the burning building was saved, which was due solely to proper management and quick action.

THE STAR BELIEVES THAT Justice of the Peace Ross is making a wise move in trying to rid the town of tramps, hobos and vagabonds who have made Wainwright their camping ground. We further believe that his action is endorsed and should receive support from the citizens generally.

AFTER THE EMPIRE CONCERT on Friday night, a well-known citizen and old-timer was heard to remark that the town was fortunate in being able to retain Mr. H. C. King as a citizen. "Had he left Wainwright when he planned to, I believe the town would have suffered an irretrievable loss," said he.

THOSE INTERESTED IN THE HOSPITAL QUESTION are anxiously awaiting whatever action the committee that was appointed sometime ago intends taking. The hospital question was a live issue at one time and continues to be an important issue that requires immediate attention. The people will await with interest any announcements of progress made by this committee.

THE ATTITUDE OF THE CANADIAN regarding the wild oil speculation in the province has not changed, and we might add that the Canadian has been offered and refused large oil advertisements. We do not care to supplement our revenues in this way at the present time.—Camrose Canadian.

THE HONORABLE DUNCAN MARSHALL, Minister of Agriculture in the province, sailed on Saturday last from Montreal on a three months' tour through England, Scotland, Ireland, Germany, France, Denmark and Sweden, to study methods of diversified farming and stock raising employed in those countries. Mr. Marshall is an enthusiastic advocate of mixed farming and has demonstrated in actual practice that it brings larger returns than any other form of agriculture.

(LETHBRIDGE HERALD)

SOME WAG HAS SUGGESTED that if the oil bug continues to break union rules and work overtime the name of Alberta will have to be changed to Oilberta. When presumably we will put the oil in Oilberta.

(MELFORD MOON)

THE WORLD WAS GIVEN another example of British justice and humanitarianism last week when a young man was thrown into jail at Owen Sound, Ont., and allowed to die of the d.t.'s.

(EDMONTON JOURNAL)

".....Mr. Wainwright will be remembered in this part of the west, not only by reason of his likeable personal qualities but because he gave his name to what promises to be a community of very considerable importance, on the Grand Trunk Pacific, to the east of Edmonton."

(MELVILLE CANADIAN)

SOME \$26,000 WILL BE EXPENDED during 1914 on concrete sidewalks in the important streets and avenues in Melville. We appreciate that this is a much to be desired improvement. This work will be carried out on the basis of "Frontage Tax," as being successfully handled in other and smaller communities.

CLEAN—No dust or flying ashes. Ash chutes guide all ashes into convenient pan.

# McClary's Sunshine Furnace

No ash shovelling necessary. See the McClary dealer or write for booklet.

## SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, and the Yukon territory, the North-west Territories and in a portion of the province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,500 acres will be leased to one applicant. Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked by the applicant himself. Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not operated, such returns shall be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. COBY, Deputy Minister of Interior

N. B. — An authorized publication of this advertisement will not be paid for.

## UNION BANK OF CANADA

### Are Your Children Learning to Save Money?

Each maturing son and daughter should have a personal Savings Account in the Union Bank of Canada, with opportunities to save regularly, and training in how to expend money wisely. Such an education in thrift and saving will prove invaluable in later life. Wainwright Branch E. K. Smith Manager.

**JOHN DEERE IMPLEMENTS**

**The New Deere Gang**  
The Only Gang That Has Self  
**Foot-Lift and Hand-Lift**

Readers, you'll find that the very name "John Deere" on any plow insures a lasting service in Service and Durability. There is no plow made that has a better or easier Foot-Lift than the New Deere, and it also has a separate Hand-Lift. It is the only plow that a boy can lift out of the ground while the horses are standing still.

The New Deere Gang is the only plow that can be controlled perfectly while working. The auxiliary Hand-Lift gives the New Deere five times the lifting leverage found in other makes and you can raise the plow without getting on the seat. Lifts 4 or 5 inches above ground instantly and positively the lightest draft plow made. This is due to the peculiar construction of the bottoms. Our latest experience makes higher grade plows has taught us where the friction is and we have added our plow bottoms to give the easiest penetration with the least draft.

Other features of the New Deere Gang are—Adjustable seat—Better steel and construction throughout—Ease of management—Dust-proof wheel—Heavy-duty high wheels—Easy running—Axles run in oil. Equal distribution of weight on each wheel. Many other features, which we will tell you all about if you write or call on us and see our Deere Gang.

<b>OFFICERS OF THE COMPANY</b>	<b>DIRECTORS OF THE COMPANY</b>
President, G. H. Beaudry, Wainwright, Merchant	Geo. E. L. Hudson, M. P. P. Wainwright, Alta.
Vice-President, W. E. Mills, Wainwright, Real Estate	E. N. C. Tanguay, President Board of Trade,
Secretary, Robert Hunter, Wainwright, Barrister	A. E. Mills, Real Estate, Wainwright, Alberta
Treasurer, E. K. Smith, Wainwright, Banker	V. E. Graham, Real Estate, Wainwright, Alberta

The company owns valuable leases of property adjoining the Battle River and intends commencing active drilling operations, immediately the above allotment is disposed of. Shares are going quickly and therefore the drilling outfit will be seen on the land in the near future

In view of the capitalization of the company, and the valuable leasehold interests held by it, the shares are cheaper than any other company on the market.
